

# Put your monthly Microsoft Azure credit to work.

Wondering what to do with your monthly Azure credit that's provided through the internal use rights program? Here are a few quick and easy ways to get started – all available to you for less than \$100\* a month.

## Create a Windows Server VM for your small production deployment or a good dev box

It's easy to create an [Azure virtual machine](#) in just a few minutes in the Azure portal.

It's not expensive – in an example scenario, it costs less than \$65 a month for a 3.5 GB virtual machine\*\*. [Price it for yourself](#) and get started with [this tutorial](#).

Check out this [video walkthrough](#).

## Go hybrid: Back up on-premises data in the cloud

Use [Azure Backup](#) to back up and restore your data in the Microsoft Cloud. It replaces your existing on-premises or offsite backup solution with a cloud-based solution that is reliable, secure, and cost competitive.

Get 10 500GB instances\*\* for \$100/mo.

Try [Azure Backup](#).

You can set up Azure Backup in less than 10 minutes. Our [how-to videos](#) will help you get started.

## Create a SQL Database

[SQL Database](#) delivers predictable performance, scalability with no downtime, business continuity and data protection—all with near-zero administration.

A sample SQL 250 GB database with 10 data throughput units is less than \$100/month\*\*.

Ready to jump in? It's easy to [create your first SQL database](#) or [an elastic database pool](#).

See how quickly you can create a SQL database – our [video shows you how](#).

Price and configure Azure features for your scenarios with the pricing calculator
